REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Applicant's arguments regarding claim 16 and Vacha are persuasive. In Vacha, the three-piece assembly (including stator outer stator shell 81 and housing elements 16 and 17) facilitates assembly of the motor since the field structure is hermetically-sealed by end caps 83/83 and outer shell 81 (c.4, lines 56-59; Figs.1&6) independent of the housing elements 16, 17 and rotor 32 (c.4, lines 66-71). There is no motivation to change this structure and provide a two-piece arrangement since Vacha explicitly states that the housing elements 16/17 are not part of the hermetically sealed unit forming the stator, which would include outer shell 81.

Regarding claims 22 and 30, applicant incorporates indicated allowable subject matter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Burton S. Mullins whose telephone number is 305-7063.
